MAPLEROOT RAMBLEWOOD CORPORATION  
INFORMATION SHEET 2026

As you already know we started using a new computer system last year. I am trying to get as much "accurate" information as possible for all future reference and future property managers to follow me.

Could you please answer the following questions, to the best of your ability. If you do not know, please write don't know.

**Electric Meter Number:** \_\_\_\_\_

In case of emergency, it is always good to know your meter number. The meters were marked at one point, but most have faded now. You can find your meter number on the back of the first page of your electric bill.

**Septic System Location:** \_\_\_\_\_

Some systems are located under the homes or porches since additions have been made over the years. I would like to indicate in our system where each system is located. Again, we do know most of them, but I want to make sure the information I have is accurate from notes over the years.

**Do you have a washing machine in your home:** \_\_\_\_\_

This information helps us when the septic systems have issues.

**Oil Tank Location:** \_\_\_\_\_ **Is it on a cement pad:** \_\_\_\_\_ **Age:** \_\_\_\_\_

We have had a few oil leaks over the past couple of years, this has become a big concern. If the tank leaks it is the homeowner's responsibility to correct any damage it caused.

ALL OIL/KEROSENE TANKS ARE BEING BROUGHT UP TO CODE BY BEING PLACED ON A CEMENT PAD. The park is going to place pads at each home, the homeowner is responsible for moving or replacing the tank.

**Driveways: Type of driveway/how many cars can fit** \_\_\_\_\_ **Age:** \_\_\_\_\_
